A photograph of an outdoor lounge area featuring a swimming pool. In the foreground, there is a dark metal frame sofa and two armchairs with teal cushions. A small square table holds a glass pitcher and a candle. In the background, there are palm trees, a black metal fence, and a sunset sky. The scene is lit with warm, golden light.

WHO WE ARE?

ROZA Design and Manufacturing

Roza is one of the outdoor furniture manufacturers in **Jordan**. But there's much more to our design than a simple aesthetic style. Our aptitude is based on many small and large things, some very concrete, others more hidden and intangible but no less important to us. What we think, the values we believe in are what makes us what we have become: a company that is unique in its own way. We will tell you about it here.

Creativity begins with curiosity

We have always been curious and we continue to be so. Our secret is the ability to look around us to anticipate the desires and needs of new lifestyles. To our ability to look ahead, we can add our aptitude for considering things from a different point of view. A '**lateral thinking**' that allows us to respond with unexpected and innovative solutions to the needs of the present and the future.

We care a lot about what we do.

And also how we do it. we have looked to the future with confidence, and every day we strive to improve ourselves by trying to reduce our impact on the planet, embracing social initiatives to promote people's well-being, and collaborating with those who share these values.

OVERVIEW
